

Aerospace

STARR
INSURANCE COMPANIES

The International Aerospace team offers coverage for a wide spectrum of aerospace risks, including completed Airframe/Engine Manufacturers, Component Part Manufacturers, Airports of all sizes & Aviation Service providers.

The team is a recognised leader across all lines of the Aerospace portfolio. Our underwriting philosophy is to provide a focused and flexible approach to our Insureds, recognising that no two risks are identical.

Our Underwriters are supported by an experienced Claims team that offer a prompt service and a realistic reserving practice relative to known facts. We are also bolstered by a Technical team that will review wordings and provide bespoke coverage needs, where required.
