

# Casualty

Starr Underwriting Agents Limited offers Casualty coverage in the Construction, Energy and General Liability segments. Starr provides coverage on both Primary and Excess Layer basis, working with UK and International clients. The team specializes in building long term relationships with brokers to provide innovative solutions to enable them to service their clients' needs.

In addition we can write Environmental Liability coverage for either Contractors, Site or Transport Pollution Liability exposure. Typical industry sectors would be environmental contractors and consultants, waste facilities, commercial real estate and bulk storage to name but a few.

We also have the capability of writing US domiciled business through the London market via our US Desk.

Our dedicated in house claim professionals have significant experience across all lines and will handle claims in a prompt and efficient manner to expedite a satisfactory conclusion.
